A CERTIFIED SMALL BUSINESS ENTERPRISE

Millburn Municipal Surveyor

In 2016 GEOD was appointed as the municipal surveyor for Millburn, NJ. As municipal surveyor, GEOD provided on-call land surveying for the municipality and provided review and support of any surveying issues for the municipality.

GEOD recently completed topographic, right-of-way and boundary surveys of five blocks in downtown Millburn that will serve as the base map for the redesign of a fast-paced infrastructure project consisting of new streets, sidewalks and curbs throughout the area. GEOD continues to provide support during the construction phase, establishing site controls and benchmarks in addition to providing verification surveys of new construction.
